Prawal Sharma

New Delhi, India | +91 98911 14036 | prawal0007@gmail.com | linkedin.com/in/sharmaprawal

Summary

Technology Manager with **9+ years** of experience building and leading engineering teams delivering **scalable, cloud-native, and AI-enabled systems** for global clients across Media and Banking domains (US, UK, South Africa). Proven track record of **100% client satisfaction, zero escalations**, and multi-year client retention. Strong hands-on expertise in **distributed systems, microservices, LLM integrations**, and full-stack development. AWS, Azure, and GCP certified. B1/B2 visa holder with onsite US client engagement experience.

Technical Skills

Languages & Frameworks: JavaScript (Node.js, React, Redux), TypeScript, PHP (Laravel), GraphQL, REST APIs, Express.js
Cloud & Infrastructure: AWS (Certified), Azure (Certified, ADLS), GCP (Certified), Serverless, Microservices, Event-Driven Architecture
AI & Data: LLM Integration, AI-Assisted Development, Intelligent Automation, Snowflake, Data Pipelines, OAuth
Databases & Tools: MongoDB, SQL (Advanced), PostgreSQL, Git, CI/CD, Docker
Certifications: AWS Certified | Azure Security, Compliance & Identity | GCP Certified | Graph Developer Associate | MongoDB Basics

Experience

Technology Manager Nov 2024 – Present
Successive Digital *Noida, India*

- Lead **multiple concurrent global client engagements** across US, UK, and South Africa, owning delivery, quality, and stakeholder alignment end-to-end.
- Improved engineering team productivity by **20–30%** by introducing AI-assisted development workflows including LLM-based code generation, debugging automation, and documentation pipelines.
- Architected and delivered **AI-based POCs** including LLM integrations and intelligent data workflow automation for enterprise clients.
- Drove engineering strategy focused on **scalability, performance, and system reliability** across distributed, cloud-native architectures.
- Mentored and upskilled engineers across full-stack and cloud technologies, strengthening overall team capability and delivery throughput.

Technology Lead Jul 2021 – Nov 2024
Successive Digital *Noida, India*

- Delivered end-to-end engineering for multiple large-scale applications with **100% client satisfaction and zero escalations**; directly contributed to multi-year client retention and contract extensions.
- **Connectors Platform (Media | Team: 11):** Architected and built a data integration platform connecting **200+ data sources** including Facebook Ads and Google Campaign Manager; implemented OAuth flows, data ingestion pipelines, and enterprise reporting systems.
- **Data Serve (Media):** Designed a centralized data platform integrating **GCP, Azure ADLS, AWS S3, and Snowflake**; enabled fully automated enterprise-grade data pipelines reducing manual data ops overhead.
- **Enrollment & Transactions (Banking):** Built a white-labeled **ACH debit payment solution** with fraud detection workflows, transaction management, and compliance-grade reliability for a US banking client.
- Managed cross-functional teams (PM, QA, BA) across MERN, PHP, and GraphQL ecosystems; improved delivery efficiency through process automation and structured engineering practices.

Software Engineer Oct 2019 – Jul 2021
Successive Digital *Noida, India*

- Acted as **Technical Lead** managing 3 parallel application pods for a global advertising enterprise, ensuring production releases with strong quality benchmarks.
- Delivered scalable full-stack applications using **Node.js, React, Redux, and GraphQL**; received multiple client recognitions for delivery quality.
- Mentored junior engineers and initiated adoption of automation and intelligent development workflows, improving team velocity and reducing defect rates.

Associate Software Engineer Mar 2018 – Sep 2019
Successive Digital *Noida, India*

- Led a team of 4 engineers independently; improved customer satisfaction by ~**50%** through targeted performance and reliability enhancements.
- Built scalable APIs and optimized backend systems across **Node.js, React, PHP, GraphQL, and Express.js** stacks.

Software Engineer Trainee | **GirnarSoft (CarDekho/BikeDekho)** | **NIIT Technologies** Aug 2017 – Feb 2018
Successive Digital / Prior Roles *2015 – 2018*

- Developed internal HR automation and meeting booking tools at Successive Digital; built features on CarDekho/BikeDekho platforms (Laravel) at GirnarSoft; foundational internships in PHP and Java.

Education

Maharshi Dayanand University 2012 – 2016
Bachelor of Technology, Computer Science

Awards & Recognition

Client Happiness Award – Sustained strong client satisfaction and engagement across global accounts
Exceptional Performer – Consistently exceeded performance benchmarks; multiple Star Performer & Extra Achiever recognitions
